

KIMBO™

NIMBLE, SIMPLE, LIVING

August 2024

LIFE IS SIMPLIFIED AND MAXIMIZED WITH KIMBO - TAKE YOUR JOURNEY NOW,
RELAX AS LONG AS YOU'D LIKE, AND STAY SAFE IN THE UNKNOWN.

DESIGNED FOR QUALITY AND RELIABILITY, THE SIMPLE, FUNCTIONAL KIMBO IS SMALL ENOUGH TO TAKE ANYWHERE
AT A MOMENTS NOTICE, BUT ROOMY ENOUGH TO STAY FOR MONTHS, NO MATTER THE WEATHER. BETWEEN THE
LITHIUM SOLAR POWER, AND THE FUNCTIONAL KITCHEN, KIMBO IS MEANT TO BE YOUR PERFECT
ADVENTURE RIG, HUNTING BASE, SOCIAL HUB, AND DEEP COUNTRY HIDEAWAY.

WHETHER YOU PLAN A LONG TREK INTO THE DEEP OR A SHORT BREAK TO TAKE A PAUSE.
KIMBO OFFERS THE QUALITY AND RELIABILITY TO SHAPE YOUR DISCOVERY. SIZED TO BE BOTH NIMBLE AND LIVABLE,
IT DELIVERS SIMPLICITY AND DURABILITY THAT YOU CAN RELY ON FROM A COMPANY THAT INSISTS ON TRUST.
WE'RE HERE THROUGH YOUR JOURNEYS AND WANT YOU TO BE PREPARED
WHEN YOU MAKE THE MOST OF TOMORROW.

KIMBO™

KIMBO VISION

To innovate nimble spaces for the enhancement of opportunity, community, and experience; to support and grow the working infrastructure of an American manufacturing system, built for the creation of 5000 American jobs.

OUR MISSION

To design for longevity, inspire to action, and give from passion, to drive a greater love of the outdoors to humankind.

THE KIMBO DIFFERENCE

We at Kimbo know that the way we can grow as an organization and make the difference in the world that we seek is by going above and beyond for you. This camper is designed to outlast traditional campers, to be easily repaired when damaged, and to be highly functional and modifiable when the need arises. We truly are here to offer a well made camper that you love more the more you own it.

THE KIMBO PROMISE

When you purchase any of our products, you are entering into an agreement with us that is solidified. We are here with you and for you, every leg of your journey. We know that this is a significant purchase, and our promise to you is a company and culture that you can trust. We're both in it for the long haul.

HISTORY

Life has such a fascinating ebb and flow. We have periods of growth and periods of rest. Kimbo started as a tool to experience the outdoors in a way which maximizes the experience you have as you go through all of life's stages.

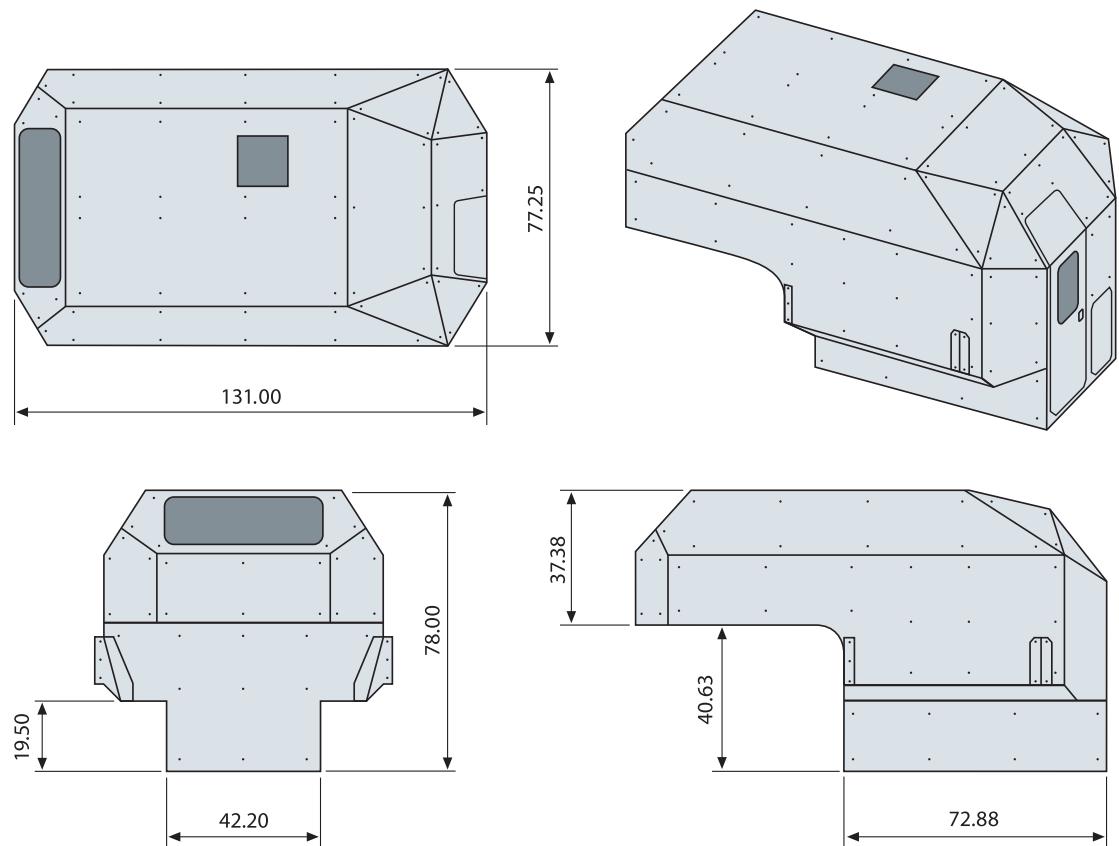

What it turned into is so much more than a tool for rest. It has become a tool for being prepared in a world of uncertainty, a tool for being prepared for your adventures, and a tool for being prepared to connect with the ones you love to create meaningful memories. Through all of the prototypes and versions of this camper, it's become a nimble home that you can take anywhere at any time.

On a whim in 2016, Mark King made a 3000 mile loop through national parks and met some amazing people along the way. It was one of those sporadic trips that didn't have any particular direction in mind. The views from Yosemite and Yellowstone national park are some of the best this country has to offer. After camping in a tent and making dinner on the tailgate, he thought up the Kimbo camper: a camper that's designed to outlast, to be reliable, and to be safe so that you don't need to worry about whether or not you're prepared for the next bend in the road.

There are only a handful of times in our life that we can be "in the moment", especially in this complicated day in age. We at Kimbo believe in driving a greater love of the outdoors, and providing the tools you need to be at peace and live in the moment, wherever you choose to recharge.

Options to build out your Kimbo 6:

All modules include intallation

Kitchen / Sink Module \$1,790

For use in food prep, hand washing and as a bathroom sink: stainless steel marine sink mounted in birch plywood counter with hand pump faucet and 2.5 gallon under counter multi-use water tank for water storage.

Refridgerator + Solar Module \$3850

For use in keeping food cool with minimum energy consumption: 12V refridgerator 1.7 cubic ft. with LED lighting, exterior water-resistant, removable louver panel with bug screen, weather intrusion channel, surrounding wood interior and partial kitchen top. **Includes two Blueli system batteries (1209 Wh total) and one additional 100W solar panel.**

Wooden Storage Unit and Table \$1120

For use as your clothes closet with shelves that won't fall out when you are driving: main clothing storage of interlocking birch plywood, mounted to center wall, dining / desk surface.

Interior Foldaway Shower \$1980

For use as a compact hideaway solution to showering indoors in small spaces. Includes floor drain pan, grey water exit hose, ceiling-mounted shower curtain, Geyser Systems portable shower with heater and custom-fitted cushion above the storage lid. Geyser

Systems built-in heating with sponge allows you to wash yourself and your gear with 0.8 gallons of water. Consistent flowing water with no pressurization needed.

NOTE: Shower Module is not compatible with Seating and Storage Nook or the Foldaway Shower Module.

Joolca Hottap Outdoor Shower \$1840

Joolca is the world's smallest water heater in its class. With a quick connect water in, connection for water out, and quick connect gas hook up, this fast setup allows for an outdoor shower that can tap into any water source. Runs off of propane and electric. Comes with Hottap Outing Kit and exterior mount with cover and easy access outdoor electrical hookup.

Additional Solar Panel(s) \$700

The base model includes one 100 watt panel. Add up to two additional roof-mounted waterproof panels for use in obtaining more energy input while away from an electrical plug in. Sealed exterior to interior transition.

Propane Fireplace and Chimney \$2,350

For use during the winter as a constant off-grid heatsource: exterior vented propane fireplace with dry air, weatherproof roof chimney, 12V wiring run, and custom roof transition. Propane alarm.

Propane Tank 30lbs \$200

For use as a mid-term to long-term off-grid solution to living while traveling untethered: high capacity 30 pound propane tank filled and fitted for year-round use, polyester tank retainment strap, insulated propane storage bay with condensation drain holes.

Extra Bed Module \$1490

Bring your friends and family along on your adventures with the Extra Bed Module. This secondary bed platform allows for one adult or two children.

When not in use, stores vertically in front floor wall. Comes with a quality mattress pad designed specifically for the Kimbo, the cover is washable and waterproof.

NOTE: Extra Bed Module is not compatible with Seating and Storage Nook or the Foldaway Shower Module.

A/C and Storage \$1830

For use in hotter climates to ensure your Kimbo stays cool: window style air conditioner, custom weather-proof, riveted storage bay, plus insulated exterior winter panel for expanded interior storage.

NOTE: A/C only runs off of shore power or generator.

Wire Interior Storage Baskets:

Kitchen Wire Storage: One large basket along kitchen \$90

Pantry Wire Storage: Three baskets at left side couch \$150

Bedside Wire Storage: Three baskets at end of bed \$175

Roof Tracks System \$760

60" roof tracks for hauling additional gear on your adventures. The roof tracks are designed to work with your favorite rack systems by Thule, Yakima, etc. and can support up to 100lbs.

Passenger Side Ski Racks \$700

42" horizontal space on the passenger side of the Kimbo for storage of your skis and snowboards.

Exterior Shade Awning \$3400

Lightweight 8.5' awning with aluminum construction mounts holds unfurled awning well when stationary, and during travel. Mounted along the passenger side. Later, add optional tent walls to turn your space into an outdoor room.

Truck Bed Rubber Mat \$128

The rubber mat measures the exact dimensions of the camper footprint, and adds vibration dampening, extra insulation to your floor, and prevents camper slippage. Recommended for all.

Seating and Storage Nook \$1,220

Wooden floor unit for tucked away easy to access storage. The hinged bamboo-topped lid can be secured in both open and closed positions. Store dehumidifier, camp stoves, composting toilet, extra water, or whatever supplies you need to make your adventure possible.

Surfboard/SUP Storage System \$1,000

Racks hold boards on their sides, at their strongest point, eliminating pressure points and protects your board against dents and damage. SUP rack stores boards up to 80lbs and 8" thick. We supply the suspension system u-rack and manufacture the base rail frameworks, the jack extensions, and jack hand crank extensions to complete the surf rack system integration with the camper jacks.

Dometic GO Faucet Upgrade \$360

This upgrade replaces your standard pump faucet and 2.5 gallon tank, into a one-touch operation faucet paired with a 2.9 gallon multi-use water tank. The faucet is removable and magnetically mounted and nested inside a sturdy custom holder to keep it in place from the bumpy road.

Exterior Grab Handle \$78

We install an additional handle along the rear door, to attain a better handhold when pulling yourself up from the ground onto your tailgate. Especially useful with lifted suspension trucks.

Starlink Wiring Installation \$500

Enjoy internet connectivity wherever you find yourself. No need to send us your dish kit, we will wire everything so all you need to do is plug in your dish and router to enjoy this useful module.

Starlink not included.

Ⓐ 5 1/2", 172lbs \$3150.00

Aluminum Subfloor Drawer System

Weatherproof lightweight locking storage system 150lb capacity per drawer. Raising up Kimbo while not occupying sidewalls to maximize storage under and on either side of the Kimbo.

Outer Dimensions:

72" Long x 42 1/2" Wide x 5 1/2" High

Inner Dimensions:

71" Long x 40 1/2" Wide x 3 7/8" High

Solar Panel Plug \$260

This plug will enable you to connect any additional fold-away solar panel to the internal battery system, maximizing your energy input. The plug is SAE type.

MaxxAir Fan 7500 Upgrade \$280

An upgraded roof vent fan from our stock unit. The MaxxAir 7500 fan has all the basic functions of the stock fan, with the addition of the rain shield. The shield allows you to keep the hood open anytime, even when raining outside.

Entertainment System \$630

Custom-mounted 19" swivel-armed screen hard-mounted to the interior frame of the Kimbo at the foot of the bed. The monitor has a built-in DVD player and casting ability for entertainment or work-from-home purposes. Wired-in for off grid use.

ADDITIONAL UPGRADES:

Rotopax Mounts \$174/ea.

Secure Rotopax fuel or water containers with Rotopax Standard Universal Single Container Mounts. Unique rotating action interacts with the molded knuckles on the containers to lock solidly into place.

Rotopax Fuel or Water Containers \$129/ea.

2 gallon fuel or water containers that are EPA and CARB approved for use with gasoline or water storage. Fuel (red color) / water (white color) containers.

Two-way Hose Splitter for Propane Line \$250

Allows you to connect a second appliance such as a camping stove to the 30lb propane tank. Available for exterior use, mounted in the propane cabinet with extension hose options to be applied as owner use and needs require.

Jack Bracket Extensions \$530

Aluminum extensions for all four jack bracket mounts that allow for the Kimbo to be installed on full size trucks. Without extensions, the interior width between jack footing is 81.5". Extensions increase interior width to 90".

*PRICES SUBJECT TO CHANGE

Subfloor Drawer System

This compact and light-weight Kimbo-specific solution is designed to fit Mid and Large Pickups. Our aluminum subfloor allows you maximum secure storage under and on either side of the Kimbo while providing the tiedowns necessary. It raises up your Kimbo while not occupying the sidewalls, which allows you storage for larger or wider items such as lawn chairs, folding stairs, dog ramps, small generators, and fuel tanks.

Features:

- Welded and sealed structure ribbing, joists, and top plate
- Drawer capacity - up to 150 lbs per drawer
- Drawer dividers included with both models
- 1/4 inch thick aluminum diamond plate material
- 2,500 lbs of top load capacity
- Locking latches with set screws for extra security
- Weather resistant neoprene gasket keeps water out and items dry
- Teflon glides for smooth drawer operation
- Extremely light (172-191lbs)

One Size Available:

A 5 1/2", 172 lbs (All midsize, Dodge, Chevy, GMC, Ford 150, Older model Ford 250s+ and Tundra)

\$3150.00 plus tax and shipping

Outer Dimensions: 72" Long x 42 1/2" Wide x 5 1/2" High

Inner Dimensions: 71" Long x 40 1/2" Wide x 3 7/8" High

Take your journey now

Start the ordering process by contacting us at info@kimboliving.com with a list of the modules you would like in your custom build. A sales representative will reach out to you with a quote. Upon your acceptance of the quote, we will issue an invoice. A 40% deposit is due upfront with the remaining balance due at the time of completion.
